

ISPmanager 6

Information for partners

New version of ISPmanager

ISPmanager 6 – is a new step in the evolution of the classic product.

Proactive error correction system, convenience, additional tools for developers — these are just a few of the expected changes.

[Roadmap](#)

ISPmanager 6 prices

B ISPmanager 6 The license price depends on the number of domains.

	ISPmanager			
	Lite	Pro	Host	Business
	Unlimited number of accounts			
	10 domains	50 domains	Unlimited number of domains	
	Technical support is included			
Monthly licenses	5€.	10€	15€	20€
Yearly licenses	55€.	110€	165€	220 €

How to sell ISPmanager 6

1. Selecting tariffs in ISPmanager 6

Send our technical support the link to the page through which you sell ISPmanager: landing page or client area. We will set up redirecting to it from ISPmanager 6. By clicking on the tariff, users will be taken to the specified page

2. Reselling through BILLmanager as a separate service

If you resell ISPmanager through BILLmanager as a separate service, import the tariff plans:

- ISPmanager 6 Lite,
- ISPmanager 6 Pro,
- ISPmanager 6 Host
- ISPmanager 6 Business

to BILLmanager. Tariffs import mechanism is described [in the documentation](#).

3. Reselling through BILLmanager as an addon to the tariff

If you resell licenses through BILLmanager, create new enumerations with new tariff ids.

See [the documentation for details](#).

4. Reselling through WHMCS

If you resell licenses through WHMCS, connect tariffs with the new ids. See [the documentation for details](#).

In case of difficulty, [please contact us](#).

ISPmanager 6

Changes in the NOC program

Discounts on ISPmanager 5 and VMmanager 5

Discounts on these products will continue to apply to all qualifying partners up to EOL of products.

Discounts on turnover

Discounts on turnover not related to the NOC or Reselling programs will be discontinued on June 15, 2021. To continue receiving bonuses, you must apply for one of the two programs.

- [For resellers;](#)
- [For hosting providers.](#)

NOC and Reseller program

The terms of the reseller programs have been changed: ISPmanager 6 reselling program was added, minimum turnover increased, conditions clarified.

Attention current resellers: to maintain the conditions for participation in the reseller program, you need to pass the qualification by June 15, otherwise participation in the partner program will be discontinued on July 1, 2021.

You can read about the new programs and file the application on our website.

EOL ISPmanager 5

End of sales

As of June 15, 2021, it will no longer be possible to buy or renew the ISPmanager 5 license. The panel will continue working until the subscription expires.

Until that date, the current licenses can be renewed no later than the end of 2021.

Technical support

- For ISPmanager 5 - LTS support is provided until the license expires.
- For ISPmanager 6 - support is provided for all licenses with the last two numbered versions of the panel. Read more on the next page.

Updates

Starting from April 14, 2021

- For ISPmanager 5 updates will continue to be released, but the expansion of functionality is not planned.
- All kinds of updates are planned for ISPmanager 6: expansion of functionality, fixing error and vulnerabilities.

Upgrade to ISPmanager 6

Tariff change

- If the user purchased ISPmanager 5 as a separate service, he should go to the billing platform, press "change tariff" and make the payment. The server will then update the license within 24 hours.
- If the license was sold as an add-on to the server, the "control panel license" parameter on the server edit form needs to be changed.
- **Important notice:** if automatic panel update is disabled, you need to go to "About panel" and manually update the panel to the latest version.

Buying a license

When you buy a new license, you must replace the key with the ISPmanager license. Refer to [the appropriate documentation article](#) for details.

Discontinuing ISPmanager 5 licenses

- Licenses purchased before April 8 will be valid until the end of the paid period. After it expires, the license will be stopped.
- Until June 15, you can renew and buy licenses for a period no later than the end of 2021. When the paid period expires, the license will be stopped.
- Panels with expired licenses will still be available to view information but managing websites will become unavailable. To manage websites you will need to purchase a license for ISPmanager 6..

Additional information

One-year ISPmanager 6 license giveaway to lifetime license users

Until August 15, lifetime license users can get a free one-year subscription to ISPmanager 6. All you need to do is to contact [our technical support](#). Buying any missed updates is not required. After August 15, you will only be able to buy a license on general conditions.

Changes in the ISPmanager support policy.

Support for users of ISPmanager 6 will be provided if

- the installed version is:
 - one of two latest stable versions of the product;
 - an intermediate beta version of the product, released not earlier than the penultimate stable version.
- a supported OS is used
 - CentOS 7, CentOS 8 (recommended OS)
 - CentOS Stream (Lite, Pro, Host)
 - Debian 9, Debian 10 (Lite, Pro, Host)
 - Ubuntu 16.04, Ubuntu 18.04, Ubuntu 20.04 (Lite, Pro, Host)

Read more in the documentation:

- [For Lite, Pro, Host version;](#)
- [For Business version.](#)

If a user chooses to continue using the older panel version, no support is provided.
